

Cumulative Effects Analysis (Module 2)

Homework Assignment

Homework Instructions

If you are interested in improving your NEPA skills and abilities—and you are a BLM employee—then you can write a cumulative effects analysis, like we demonstrated in this course, and email it to Cathy Humphrey at the BLM’s National Training Center (chumphre@blm.gov). Be sure to let us know if there are particular concerns you have. Otherwise, we will review it and provide written feedback, including suggestions for improvement.

If you don’t hear back from me, feel free to call 602-906-5536 and check in.

Remember, this is for current BLM employees only!

What if I don’t want to do the Homework?

If you aren’t interested in doing the homework assignment, that’s okay. You can still get credit for the course by completing the quick posttest!

How do I get to the Posttest?

To get to the posttest, you need to be on page 6 of 6 in the course, and hit the green “next page” arrow (I know, it makes no sense, but do it anyway...) and select the option to take the post test.

How do I get the Cumulative Effects Workshop (Module 3) in my office?

After you’ve successfully completed both Modules 1 and 2 contact Cathy Humphrey, Planning/NEPA Training Coordinator at the NTC, and schedule a 2-day workshop. Your office must have at least one ongoing project to work on during the workshop.
